Examples of discussion session proposals

- **Raising Robots:** A pedagogical approach to teaching values to artificially Intelligent agents.
- A debate on the pros and cons of **Government mandated Internet filtering**.
- Talking about **Internet of Things** to help resolve **health** issues, talking about how to find **lost culture online** and bring people into the physical world.
- **Designing for privacy**, moving beyond compliance to establishing transparency, **trust and control** in how personal information is collected, used and disclosed.
- A session on **New Zealand's Open Government Partnership** (OGP) Action Plan 2016-2018
- Related to the 'Freedom' theme, you could run a panel session entitled "**Freedom-to vs Freedom-from**". (Inspired by Margaret Atwood's 'The Handmaid's Tale').
- **Harmful Digital Communications Act** - the journey so far.
- Session on **Ka Hao funding**- from funding and recipient perspectives
- **Security considerations for schools** and students with online learning activities
- Discussion on emerging Hi-Tech and the brand new CAA approved "Incredible Skies" **drone test range** in the Hokianga region is attracting companies from all over the world to test here in NZ.
- How can we better build **parents' and whānau engagement in their students' learning?** What's working or not currently when it comes to online aspects of engagement? What could schools be doing differently?
- What are the **technical constraints** to making **Te Reo Māori** more readily available on the Internet?
- Session on **social enterprise**. How can government/communities encourage this and help it grow into something that will **benefit an entire city/country?**

Topic Tags & Session Format

- Access
- Rural
- Economy & Business
- Community
- Technical & Infrastructure
- Government and Citizens
- Emerging Issues
- Culture
- Internet and the Law
- Governance
- Health
- Openness
- Education
- Safety & Security

Other Ideas: workshops, projects, side events and meetups etc

- How IoT, open source help **communities** create solutions to problems, drawing on **WhareHauora** example
- More **Youth** involvement
- **Strategic Thinking Roadmap** resource <str.connectedlearning.org.nz> to help technologies be integrated into a school-wide drive for effective teaching and learning.
- A project around making **Common Web Platform a more accessible**
- **The Universal Acceptance (UASG.TECH)** is a project that aims to make developers aware that domain names and email addresses are **no longer restricted to English characters**.
- **Māori Cultural Games Development** in Scratch for Māori communities
- Unconference sessions where **Māori can contribute their world views**.
- **Amateur sports clubs meet-up:** using the net - tips and tricks.
- **Wahine Toa** dinner or **Women Who Get Shit Done** side event
- Launch of a publication at NetHui about **The Southern Cross Cable**
- Keen to have a **Māori meetup** and discuss Māori cultural Games development in Māori Communities. Facebook **Social Media for Māori**.
- Discussion about setting up a **digital literacy special interest group**. This meeting would be used to gauge the interest, set some parameters for such a group
